

How to build a crisis management site

Mark Kashman

Senior product manager
Microsoft

Friday, March 27th, 2020

Site experiences

Create employee experiences that connect the digital workplace

Home site at the parent level for web and mobile

Communication sites reach a broad audience across the organization

Modern site at the root

Audience targeting for news, pages, and navigation

Additional branding abilities

New hub capabilities

Office 365 suite navigation

Text web part

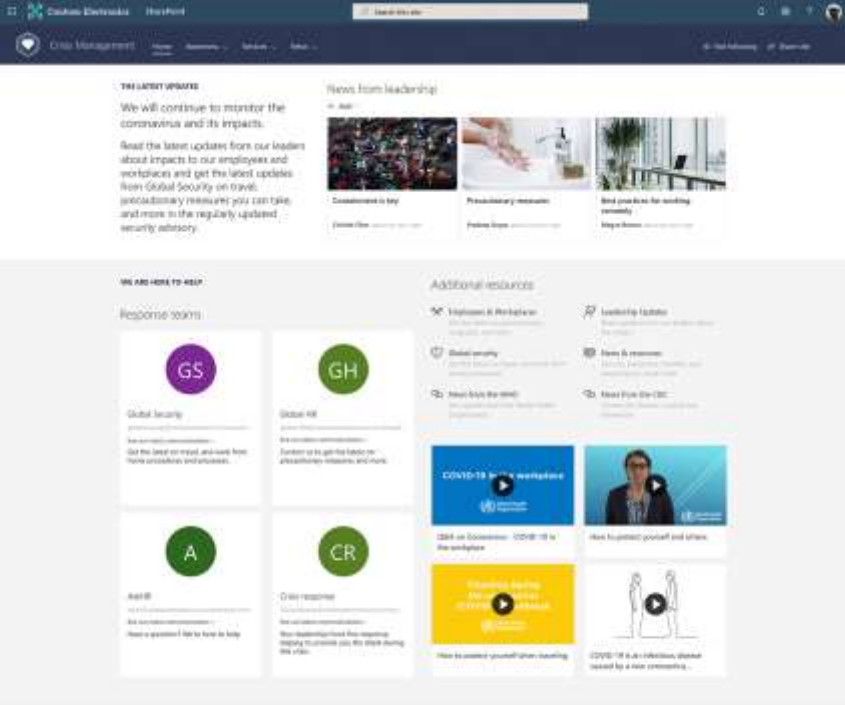

One-third left section layout

People web part

2-column section layout

Yammer web part

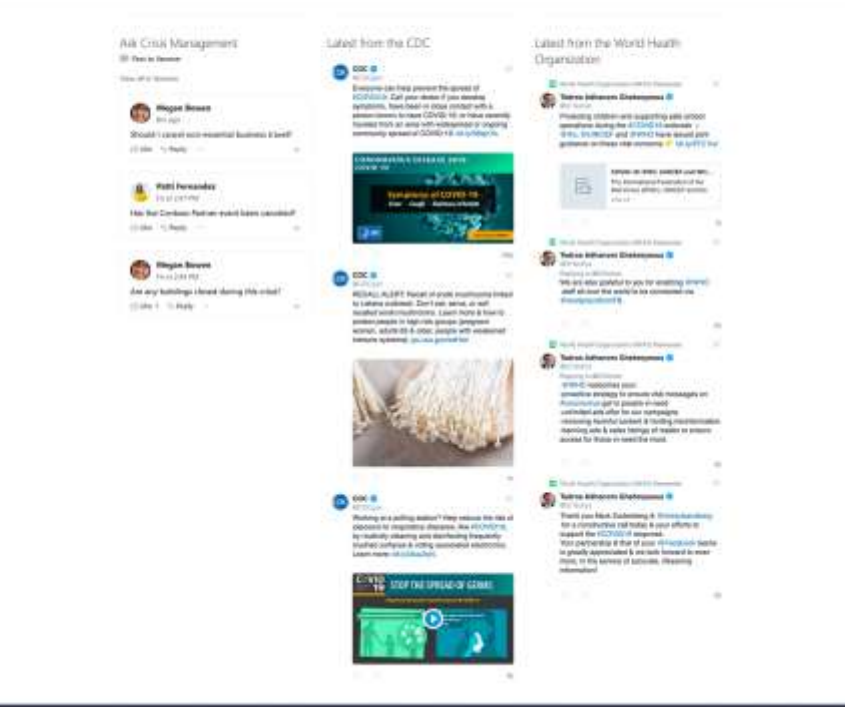

3-column section layout

Logo + Mega menu

News web part

Two Quick Link web parts

Two Twitter web parts

DEMOS

1. Provision from **Look Book** site
2. Manually "**Create site**"
