Enhance your deployment with new Teams Premium features

Abbie Sweeney & Grayson Taylor

Classified as Microsoft Confidential

Microsoft Teams

Teams Premium Features

Classified as Microsoft Confidential

Protected

End-to-end encryption option

- Encryption of information at its origin and decryption at its intended destination without the ability for intermediate nodes to decrypt.
- If enabled by IT, meeting organizers can leverage E2EE for Teams meetings. Try E2EE for 1:1 Teams calls: https://aka.ms/e2ee

Watermark

- Superimposes an image consisting of a meeting participant's email address onto the shared content they're viewing and over their video feed to help prevent viewers from leaking sensitive or confidential content shared during the meeting

Sensitivity Labels for meetings

- Compliance officers can create sensitivity labels and define what meeting options are affected.
- Settings chosen will be enforced to Teams meetings that have this label applied, includes channel meetings and those scheduled in Teams or Outlook
- Prevent copy/paste can be enabled for sensitivity labels to protect highly sensitive conversations and prevent leakage of confidential data

Who can record

- Who can record meeting option can help meeting organizers easily manage who can record their meetings

Personalized

Meeting templates

- Meeting templates can be used to configure default values of meeting options and to control which scheduling options are available to meeting organizers (external meetings, Board meetings, etc.)
- Templates can be assigned to specific users

Branded meetings

- Customization of meetings with your organization's branding. IT Admins can define a custom logo and background for the meeting pre-join and lobby experience to highlight their brand for all participants (internal and external)

Org-defined backgrounds & custom Together-mode scenes

- Custom tenant level backgrounds and Together-mode scenes that can be uploaded by IT admins to reflect the unique culture and branding of their organization.

Custom user policy packages

- Predefined policies and settings that IT Admins can customize and apply to a group of users who have a similar roles in their organization to simplify, streamline, and help provide consistency when managing policies

Intelligent

Live Translation for Captions

- Select live caption translation in your preferred language to enabled all users to fully participate in meetings without language barriers

Intelligent Recap: Recording

- Personalized timeline markers that call out important moments in the meeting such as when your name was mentioned, leave/join events, and screen share events
- Auto generated chapters to navigate recordings

Intelligent Recap: Transcript

- Intelligent search with suggested speaker in transcript

Intelligent Recap: Action items

- AI generated tasks during and after meetings

Advanced Meeting Types

Premium Webinar & Townhalls

- Webinars – structured & interactive presentations to a broader audience
- Townhalls – One-2-many format streaming, using advanced production tools and structured management

Microsoft eCDN for live events

- eCDN providers can used for Teams Live Events (and eventually Overflow) to help reduce network strain/saturation on corporate networks during high-bandwidth events

Virtual appointments

- Premium analytics that drive business insights and key investments
- Customized meeting treatment that promotes a more personalized virtual experience
- Walk-in appointments that expands service reach and generates demand

Classified as Microsoft Confidential

End-to-end encryption

Classified as Microsoft Confidential

Scenarios for E2EE Meeting

What's included:

- E2EE for Audio/Video meetings up to 50 participants
- Screen share

Features disabled with E2EE:

- Recording
- Transcription
- Together Mode
- Large Gallery
- Large Meetings
- PSTN Scenarios

E2EE + Compliance Recording

Users that have Compliance Recording enabled will not be able to join E2EE Meetings

Try E2EE for 1:1 Teams calls: https://aka.ms/e2ee

Scenarios for Watermark Meeting

What's included:

- Watermark works for Windows and Desktop sharing
- Watermark works for camera stream
- Platform: Desktop (Windows, MAC) Mobile (IOS, Android)

Features disabled with Watermark:

- PPT Live
- Whiteboard
- Recording
- Together Mode
- Large Gallery

- Anonymous users (not signed in) will have audio only experience.
- Users joining from Teams Web, VDI and Microsoft Teams Room will have audio only experience.

Policy packages
A policy package is a collection of predefined policies and settings that can be customized and applied to a group of users that have similar roles within your organization. The definitions in these policy packages aren't meant to assist with regulatory compliance, rather they are provided for your convenience and can be customized based on your own regulatory requirements. Protected

End-to-end encryption option

PM: Maryam Ahmad

- Encryption of information at its origin and decryption at its intended destination without the ability for intermediate nodes to decrypt.
- If enabled by IT, meeting organizers can leverage E2EE for Teams meetings. Try E2EE for 1:1 Teams calls: https://aka.ms/e2ee

Watermark

PM: Sadaf Badar

- Superimposes an image consisting of a meeting participant's email address onto the shared content they're viewing and over their video feed to help prevent viewers from leaking sensitive or confidential content shared during the meeting..

Sensitivity Labels for meetings

PM: Sanjay Ramaswamy, Yilin Yang, Maryam Ahmad

- Compliance officers can create sensitivity labels and define what meeting options are affected.
- The settings chosen will be enforced to Teams meetings that have this label applied, includes channel meetings and those scheduled in Teams or Outlook

Prevent copy/paste

PM: Yilin Yang

- Prevent copy/paste can be enabled for sensitivity labels toto protect highly sensitive conversations and prevent leakage of confidential data

Classified as Microsoft Confidential

Personalized

Meeting templates

PM: Ralph Maamari

- Meeting templates can be used to configure default values of meeting options and to control which scheduling options are available to meeting organizers (external meetings, Board meetings, etc.)
- Templates can be assigned to specific users

Branded meetings

PM: Nive Raghavan

- Customization of meetings with your organization's branding. IT Admins can define a custom logo and background for the meeting pre-join and lobby experience to highlight their brand for all participants (internal and external

Org-defined backgrounds & custom Together-mode scenes

PM: Margi Desai, Kartik Datwani

- Custom tenant level backgrounds and Together-mode scenes that can be uploaded by IT admins to reflect the unique culture and branding of their organization.

Custom user policy packages

PM: Rahul Dey

- Predefined policies and settings that IT Admins can customize and apply to a group of users who have a similar roles in their organization to simplify, streamline, and help provide consistency when managing policies

Intelligent

Live Translation for Captions

PM: XiXi Chen

- Select live caption translation in your preferred language to enabled all users to fully participate in meetings without language barriers

Intelligent Recap: Recording

PM: Tanja Petrovic, Katarina Djukic

- Personalized timeline markers that call out important moments in the meeting such as when your name was mentioned, leave/join events, and screen share events
- Auto generated chapters to navigate recordings

Intelligent Recap: Transcript

PM: Garrett Bronner, Itai Hershenhoren

- Intelligent search with suggested speaker in transcript

Intelligent Recap: Action items

PM: Oori Pen, Einav Blumenfeld

- AI generated tasks during and after meetings

Advanced Meeting Types

Premium Webinar & Townhalls

PM: Sam Chung

- Webinars – structured & interactive presentations to a broader audience
- Townhalls – One-2-many format streaming, using advanced production tools and structured management

Microsoft eCDN for live events

PM: Guy Paskar

- eCDN providers can used for Teams Live Events (and eventually Overflow) to help reduce network strain/saturation on corporate networks during high-bandwidth events

Virtual appointments

PM: Megan Olsen

- Premium analytics that drive business insights and key investments
- Customized meeting treatment that promotes a more personalized virtual experience
- Walk-in appointments that expands service reach and generates demand
