Agenda

- What it is
- What it isn't
- Discussion and Demo of Use Case(s)
- Open QA
- Next Steps and Resources

The age of Copilots
has arrived.

How Copilot for Microsoft 365 Can Benefit Researchers

Copilot assists in generating content, ideas, and insights with just a few words or clicks. You can use it to write documents, create presentations, design graphics, compose emails, and more.

Copilot saves time and effort by handling repetitive tasks and busy work. It can help with literature review, data analysis, report writing, and other research-related tasks.

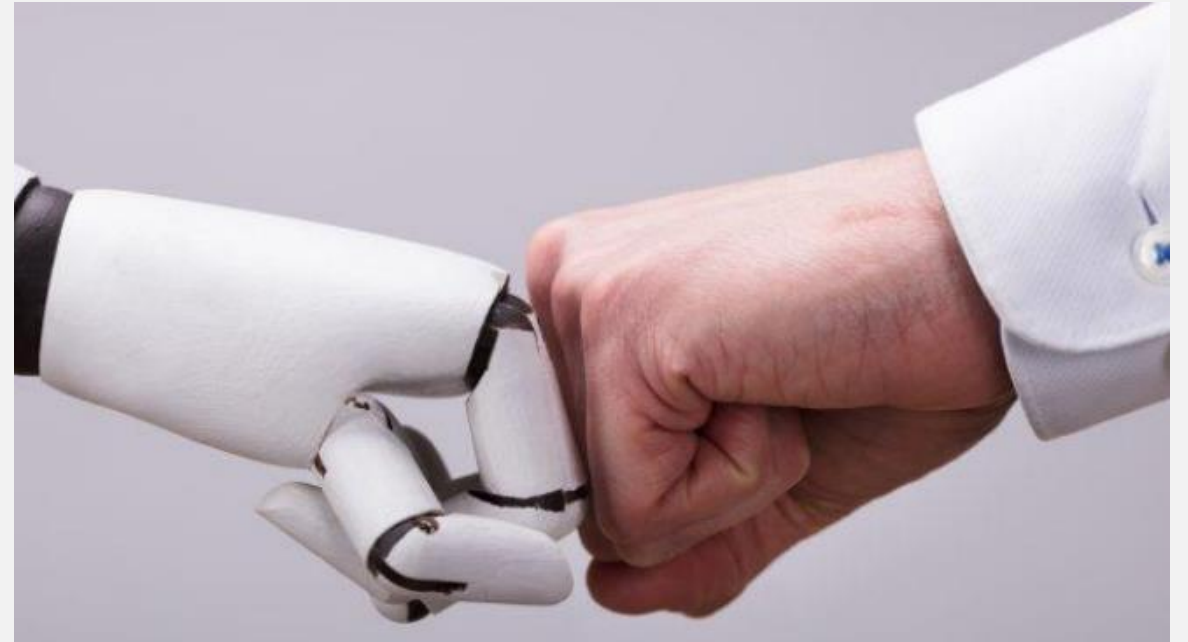

Copilot seamlessly integrates with other Microsoft 365 tools, such as Teams, SharePoint, and Word. This integration creates a **seamless workflow** for researchers and can be extended so prompts are grounded in custom data sources.

What Copilot for Microsoft 365 is NOT

Copilot is NOT an Autopilot

Copilot is NOT a replacement of your judgement!

Research Use Cases

Create a presentation

Create a presentation from a research paper

Create a presentation from a research paper

Create a cross-sectional survey

Create a survey using Copilot in Forms

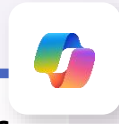

Create a cross-sectional survey for a research program

Create a protocol document

Kickstart a protocol using Copilot

Summarize two protocol documents

Summarize from non-m365 sources

Bot - Summarize data needed for research

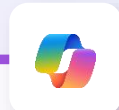

Use public and private data sources to easily find information relevant to your research project.

Create from non-m365 sources

Teams Copilot Chat - Generate data needed for research

Bring additional data into Copilot for M365 allowing users to maintain app focus while retrieving relevant information from public and private data sources

Question from non-m365 sources

Copilot in Bing - Query data needed for research

Brainstorm and research new ideas using Copilot with Commercial Data Protection, grounded in Web data using Bing Search

M365 Copilot Demo

Demo

Microsoft Copilot empowers every end user

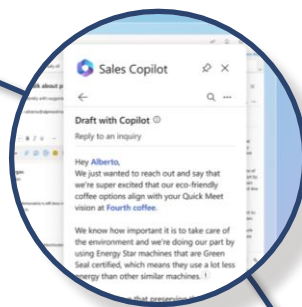

Customer service

Resolve 14% more customer issues per hour

Sales

Streamline the process of checking and answering emails

Security operations

Respond to threats in minutes, not hours

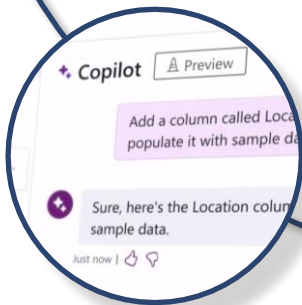

Software developers

Code 55% faster

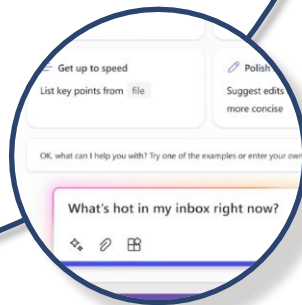

Data & IT pros

Create workflows in half the time

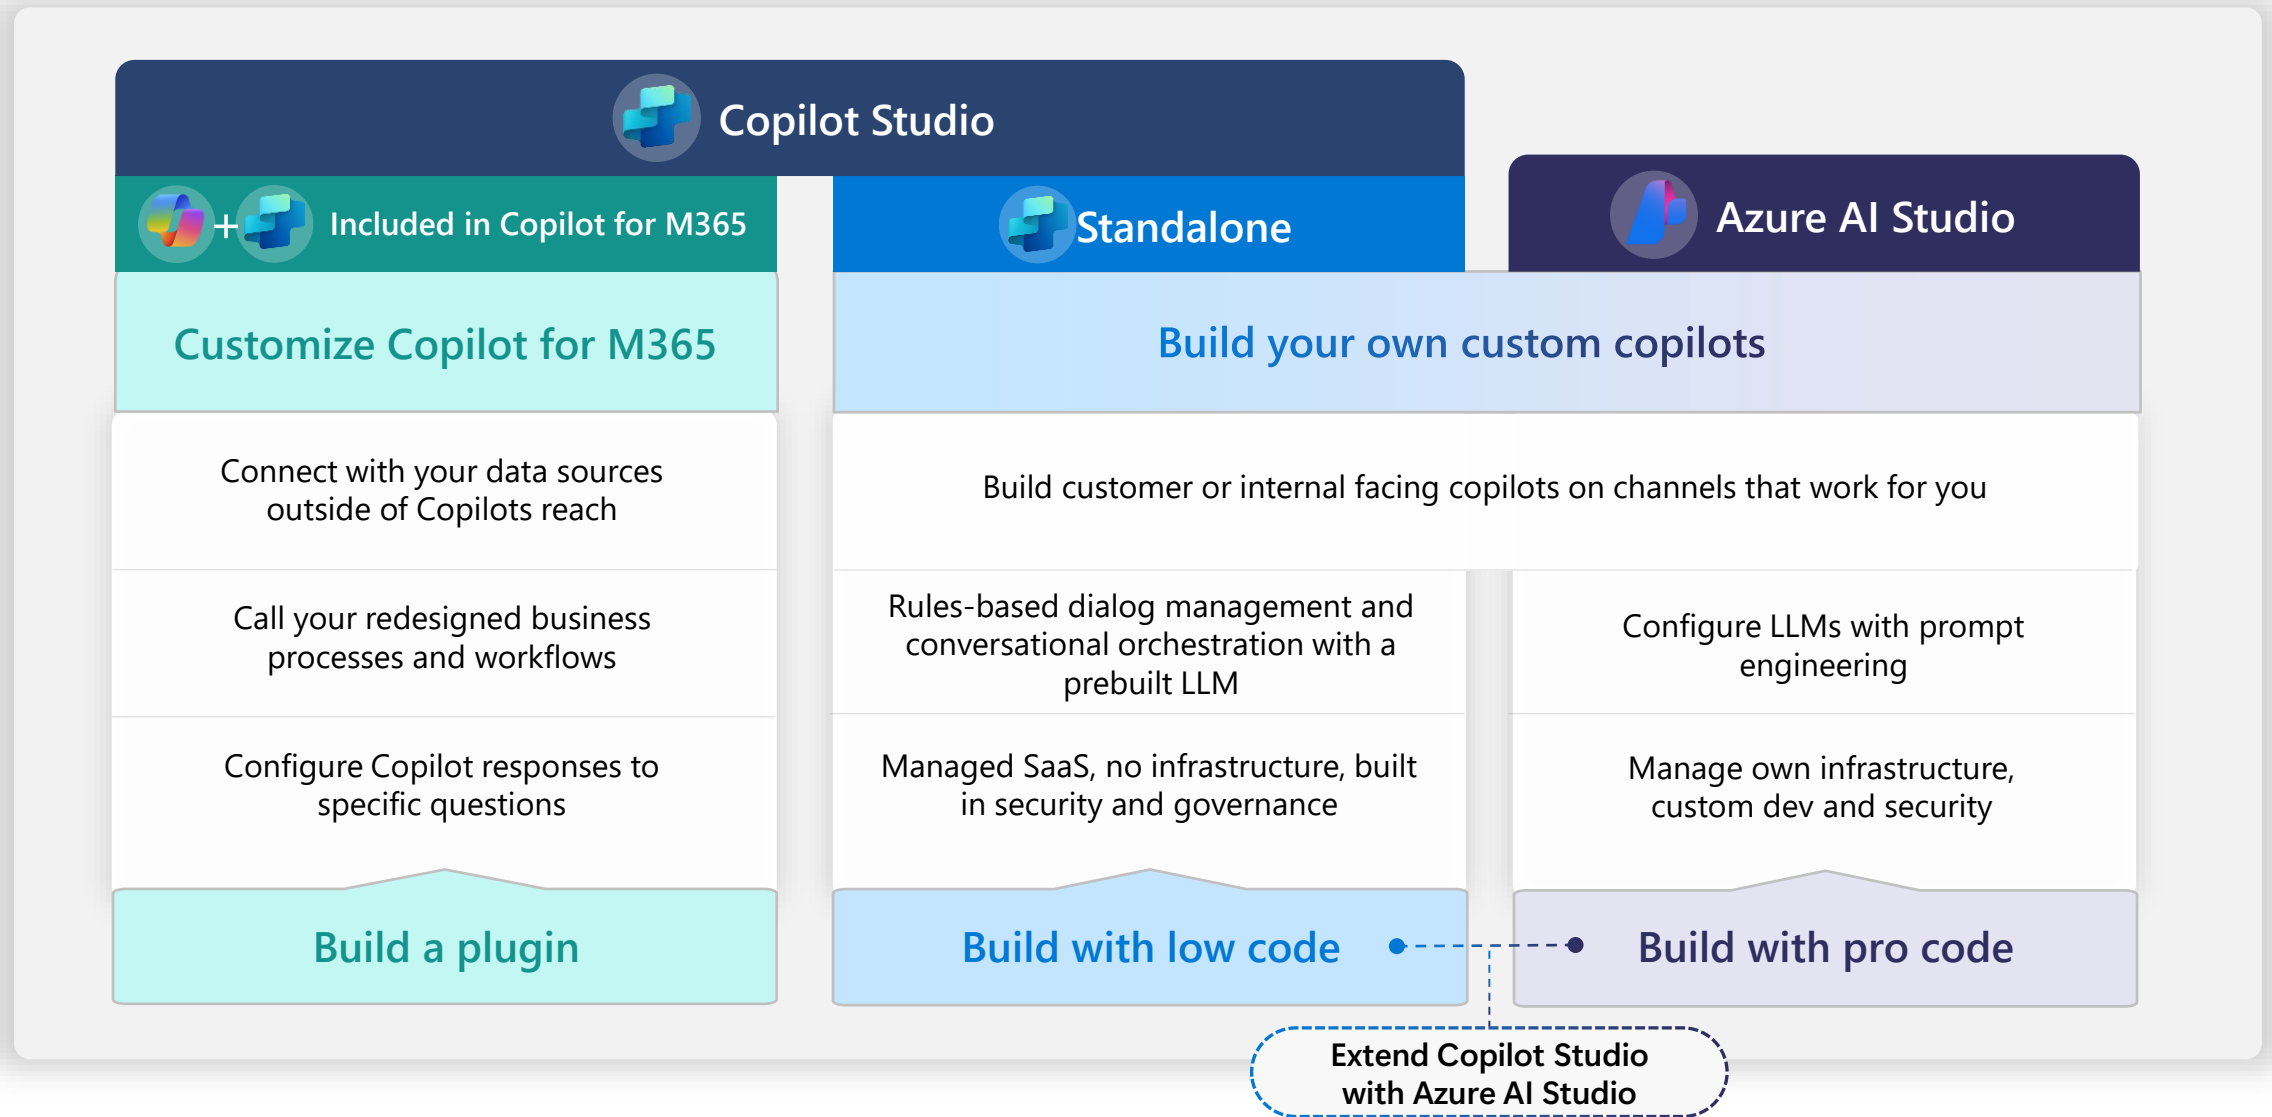

Knowledge workers

Complete tasks 37% quicker

Different building journeys for different needs

Unique Value of Copilot Studio

Any Experience – Extend existing Copilots* & Build New Copilot Experiences

Any Audience – Enabled for internal & external audiences

Any Maker – build with natural language for low code users & capable of rich extensions for pro-devs

Extensibility Demo
